

M.P. Shah Arts & Science College, Surendranagar

Counseling of Thalassemia/Sickle cell students Date: 23-08-2018

In the continuation of Thalassemia Testing and Awareness Program conducted by NSS Team on 19 July 2018 in the college, the second phase of the program in the form of Thalassemia Counseling was organized by NSS Team on 23-08-2018 at M.P.Shah Arts and Science College Surendranagar. The students who had gone through testing in the first phase of the program and were detected Thalassemia minor or sickle Cell Positive were specially appealed to attend this session as this was organized to guide them in detail what measures should be taken in future with the testing result. Total 23 students were detected as minor and their parents were also invited to attend the counseling session. The team from Red Cross Society Ahmedabad was invited to counsel the students whose testing results had come minor. They talked at length on the safety measures students must take in future. It was a significant program held by the team the efforts of which were also appreciated by the Principal.
